

Fertilizer selection for India

This edition is intended for fertilizer importers and procurement teams in India. DAP and NPK lead the selection, with potassium sulphate as a complementary option. Include your required formula, importer details and documentation requirements when requesting a quotation.

Featured selection

Diammonium phosphate (DAP)

18-46-0

Nitrogen and phosphorus grade for procurement enquiries.

[View product](#)

NPK compound fertilizer

15-15-15

Compound NPK grade with declared 15-15-15 nutrient formula.
